## KEY INVESTOR INFORMATION DOCUMENT

This document contains key investor information about the MCB 2035 Target Date Fund (the “**Sub-Fund**”) and its current class of units in issue, namely the “**Retail Accumulation Class**”. It is provided with informational purpose only and does not constitute marketing material. The information is intended to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read the document carefully to make an informed decision about whether to invest.

## MCB 2035 TARGET DATE FUND

The Sub-Fund is an MUR denominated sub-fund of MCB Unit Trust (the “Fund”) with ISIN: MU0650S00053; Citi Code: K2KE; Bloomberg Code: MCBTD35 MP. The Fund, together with the Sub-Fund, are managed by MCB Investment Management Co. Ltd (the “Fund Manager”), holder of a CIS Manager licence issued by the Financial Services Commission. The Sub-Fund consists currently of one class of units, i.e. the Retail Accumulation Class.

### Objectives and Investment Policy

- ❖ The Sub-Fund adopts an active management strategy with the primary objective of achieving long term capital growth, income as well as capital conservation by investing in a mix of local and foreign securities in different combinations and weightings.
- ❖ The asset mix follows an asset allocation glide path; in early investing years, the glide path allocates more to asset classes like stocks to maximise wealth accumulation potential. As the Sub-Fund approaches and passes the target date of 30 June 2035 (the “Target Date”), it will increasingly emphasise on income and conservation of capital by investing a greater portion of its assets in bonds or other fixed income securities. In this endeavour, the Fund seeks to balance the total return and stability over time in light of the Target Date.
- ❖ The Sub-Fund is devised for investors who have an investment time horizon, about or close to the Target Date.
- ❖ Units can be bought and sold once a week on every Friday. Proceeds of repurchases/redemptions are usually paid to unit holders, subject to the terms of the Fund’s documentation, within 10 business days after the processing date.
- ❖ The units of the Sub-Fund are not entitled to dividends.
- ❖ The Sub-Fund is actively managed with the Fund Manager applying fundamental analysis in order to pick securities in a selective and discretionary manner.
- ❖ The units are denominated in MUR, the Sub-Fund's base currency
- ❖ The Sub-Fund’s returns depend on the performance of its underlying investments and it does not provide protection against investment losses caused by financial markets.
- ❖ Suitable for investors with all levels of knowledge and/or experience, seeking capital growth, and who have 5 years or more investment horizon. The product does not have any capital guarantee and up to 100% of their capital is at risk.

## Risk and Reward Profile

The risk category 5 reflects a potentially medium gain and/or loss in the value of the portfolio. This is due to 70%-100% of the Sub-Fund's assets being invested in equities in early years of investment.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The actual risk profile can vary significantly if you sell at an early stage and you may receive a lower amount than your initial investment.

The risk category associated with this Sub-Fund can evolve over time based on market conditions. The lowest risk category does not mean "risk free".

Your investment is not guaranteed. The summary risk indicator is a guide to the level of risk of this product. It shows how likely it is that the product may lose money because of movements in the markets.

**Significant risk(s) for the Sub-Fund include, but is not limited to::**

- ❖ **Market risk:** The performance of the Sub-Fund will be dependent to a great extent on the performance of financial markets, mainly local and overseas equities. Thus the value of the Sub-Fund will fluctuate as a result of changes financial markets.
- ❖ **Foreign currency risk:** The Sub-Fund has to some extent investments in assets denominated in currencies other than MUR and is therefore exposed to the risk that the exchange rate of the MUR relative to these currencies may change in a manner which has some effect on the net asset value.
