### COMMENTS ON THE RESULTS

Group turnover for the period under review reached MUR 5.5 Bn, an increase of 4.5% on last year. The Group posted profits MUR 353.8 M, compared to MUR 590.2 M for the corresponding period in 2022 on account of losses incurred by our associate in Côte d'Ivoire coupled with higher finance costs.

However, the focus of the Group's financial performance should remain on full year results, taking into consideration the seasonality of several activities of the Group.

#### CANE

The lower profitability of MUR 157.3 M (2022: MUR 279.5 M) from our local sugar operations is mainly attributable to the decrease in the tonnage of canes manipulated and sugar accruing therefrom. The financial impact of these operational parameters has been partially mitigated by higher than expected sugar prices.

Our associate in Côte d'Ivoire recorded substantial losses, as a result of poor crop output, higher production costs and delays to get the mills operational for crop year 2023-24, and our share of the resulting losses for the first nine months of 2023 amounted to MUR 206.5 M.

#### POWER

The plant resumed its operations on 29<sup>th</sup> April 2023. Although turnover dropped by 25% to MUR 762.2 M due to the low offtake level, its performance, for the period under review, remained on par with last year. The reduced share of profits recorded from our associate in this cluster, compared to last year resulted in slightly higher cluster losses of MUR 52.7 M.

#### BRANDS

The turnover of our Brands cluster grew by 13.3% to reach MUR 1.9 Bn. This performance was nevertheless impacted by higher finance costs and poor financial results recorded by our operations in Seychelles, resulting in overall profits of the cluster to drop to MUR 92.5 M as compared to MUR 106.4 M in 2022.

#### PROPERTY AND CONSTRUCTION

The Property cluster posted marginally higher profits of MUR 210.6 M (2022: MUR 201.4 M) on account of increasing revenue from property sales, rentals and consultancy fees along with the leisure division which is performing remarkably well.

The cluster is expected to post improved 2023 yearly results, with the forthcoming opening of its latest yielding asset, namely The Strand Lakeside Offices.

#### OTHERS

The one-off profit on disposal of our investment in Aquasantec International Limited, together with the fair value gain arising from our investment in United Investments Ltd classified as non-current assets held for sale have contributed to offset the increase in finance costs resulting in the overall profitability of the cluster to reach Rs 152.6 M (2022: MUR 76.9 M).
